

Pioneering Progress: Understanding the Nuances of Innovative Phase 1 Clinical Trial Design

Online Training

Date: July 25, 2025

Hour: 10:00 GMT+2

Day 1 - 25th of July 2025

09:30 – 10:00	Registration
10:00 – 11:30	Early phase Drug Development <ul style="list-style-type: none"> • Clinical Trials domain overview • Regulatory environment • Drug Development (phases of Clinical Trials, Timelines, Costs) • Pre-clinical studies (Types, purpose)
11:30-12:00	Coffee Break
12:00 – 13:30	Early phase Drug Development <ul style="list-style-type: none"> • First in Humans studies • Phase I studies (sub-phases, characteristics, and limitations) • Phase I studies (sub-phases, characteristics) • Early Phase clinical trials (concept description, importance, and frequency)
13:30 -14:00	Lunch
14:00-15:30	Early phase Drug Development <ul style="list-style-type: none"> • Early phase centres • Bioequivalence trials • New regulatory changes triggered by some failures
15:30-16:30	Understanding GMP <ul style="list-style-type: none"> • major GMP standards worldwide
16:30-17:00	Coffee Break
17:00 – 18:00	Latest innovations in Clinical Trial Protocol Design <ul style="list-style-type: none"> • Umbrella • Basket • Platform

NOTE: Due to the interactive nature of the agenda, the timings may change.
